Project

- **Project Title (Minor Project)-** Gesture Controlled Robot
- **Description -** A Gesture Controlled robot is a kind of robot which can be controlled by your hand gestures not by old buttons. You just need to wear a small transmitting device in your hand which included an Accelerometer. This will transmit an appropriate command to the robot so that it can do whatever we want.

- **Project Title (Major Project) -** Bill Prediction & Power factor Measuring with SMS Alert
- **Description -** This project is based on AT mega family microcontroller. This System calculate the bill of any specific equipment as well as with their power factor measurements and sends these information at consumer or user at mobile phone. This System can prove to be very useful for places where devices are needed to be quality checked before they can actually be used or deployed on site.
